A RECORD OF WHAT IS DOING
IN ALL THE MARKETS OF THE WORLD
IN AMERICAN RAW FURS

Extracts from The Shubert Shipper of January 12, 1909:

The greatest Raw Fur market in the history of the trade. Personally, I like it for there is more excitement in it to the square inch than was ever found in a political convention with nine candidates for the same office. We are not buying furs to look at but to sell, and we advise all our friends to get into the band wagon, but keep it moving. It is the best trading market, the raw fur dealer ever saw or ever will see.

Buy and sell but do not hold goods.

The offerings of the London sales were also given in THE SHUBERT SHIPPER of January 12th, as well as much other valuable information to trappers, collectors and shippers of furs.

THE SHUBERT SHIPPER is issued twice each month during the Raw Fur season, about the 1st and the 15th, containing timely information. If you are interested in raw furs and mention the H.T.T., we will put your name on our mailing list for the balance of the season, sending you each SHUBERT SHIPPER as soon as ready for mailing. Remember that two are issued each month.

A Pattern Especially Gotten Up for H-T-T.

The back half of the blade is similar to an American pocket knife and will hold the vital part under pressure. It is slightly curved and is an ideal skinning knife; weighs but 3 oz., yet few knives can be sharpened with little work. The front half is the finest of large hunting knives; the blades are tempered, fire tempered, and forged from razor steel and warranted. Sample 50 cents, postpaid. Send for 80 Pages of Information about the knives, free of charge, to any address. We make and sell every kind of knife, from a 50 cent to a $100 knife. Our knives sell for $2 to $50. They're razor steel!

IT ALL DEPENDS ON THE MOTOR

When you buy a Marine Motor you want the best—undoubtedly you try to find one which is "the best." You want a motor that is "trouble proof" for when the engine stops the boat stops. You want an engine that is dependable and that will last more than one season, at a minimum cost for repairs and fuel.

If you have a racing boat you want "to win"—it is a pleasure launch you want to know that when you take a pleasure trip you will not have to be towed home. You don't want any base explosions that make your family and guests think the motor is going to blow up.

ROBERTS MOTORS ARE TROUBLE PROOF

Designed by R. W. Roberts, M. E., one of the most expert mechanical engineers in the United States, and constructed under his personal supervision, they are infinitely superior to every other marine motor made in this country. You ask, "Why?" Well, there are so many "reasons why," that we can't explain them all in this small space, but our catalogue tells the reason—gives many testimonials and tells why marine boats equipped with Roberts Motors "win in the races." You don't need to be a mechanical engineer to understand the Roberts Motor—it's so simple, easy to operate and absolutely dependable. Send us your name now—our catalogue will be sent you by return mail.

WILL EXHIBIT AT NATIONAL MOTOR BOAT SHOW, Madison Square Garden, Feb. 15th to 21st.
