A prospector made a dugout at Clifton, launched it in the Gila, laid in a six weeks' supply of provisions and set sail for Florence. He met with smooth sailing until within fifteen miles of Riverside. There his frail bark struck a sawyer, capsized and dumped the contents into the river. He swam ashore and made the remainder of the journey to Florence on foot, arriving here on Sunday. The Gila is a hard stream to navigate. We speak from experience.—Enterprise.

LOCAL NEWS.

California Hour at Van Wagenen's.

Mrs. W. W. Gibson has so far recovered as to be enabled to leave her bed.

Chas. E. Mann and Morris Belknap were in Globe the present week from San Carlos.

Dr. S. C. Heineman returned to Globe on Tuesday, after a brief absence in San Francisco.

Charles Schulze and family who recently moved from Globe to King, returned on Wednesday.

On Sunday last Chas. E. Taylor painfully lacerated his hand by the breaking of a bottle.

California Hour at Van Wagenen's.

John Holohan who has been on the Pacific Coast for the past two months has returned to Globe.

Van Wagenen does not keep a bargain counter, but will guarantee you a bargain all the same.

Riley says the ladies of Globe must keep their eyes open for pretty prints as he intends to give a grand calico ball during this month.

Aeschlimann & Riley will dissolve partnership after the 5th inst. and the business will be carried on by Fred Riley and Wm. Robinson.

M. J. Dobbins who has been swinging round the circle of mining camps in New Mexico, Chihuahua and Sonora, Mexico, is again in Globe.

California Hour at Van Wagenen's.

Arrangements are in course of progress for the meeting of the Territorial Republican Convention, the call for which will shortly be issued.

The Globe Silver Belt is one of the handsomest weekly papers in the Territory. It is a credit to Arizona journalism.—Tombstone Democrat.

I. O. O. F. Anniversary 67th.

We are requested to say that certain boys of tender years, at the rink on Thursday night, were very annoying to members. Mr. Riley will please make a note of it.

We learn from the Boston Post of the 25th inst. that P. B. Shumway, a leading capitalist of Chicago, has secured a large block of bonds of the Arizona Mineral Belt railroad.

Frank Cline and Fred Gates had an animated dispute with their fists, and paid Justice Wentworth eight dollars and twenty-five cents each for the luxury of displaying the manly art.

California Hour at Van Wagenen's.

There will be a special meeting of White Mountain Lodge No. 3, F. and A. M., this evening. Members and visiting brothers are requested to attend. Work in the third degree. My order of the W. M.

David Horst, an old resident of this county, who recently sold out his ranch on the Verde was in town today, and paid his respects to the Journal-Miner office. He thinks of going east and purchasing a lot of blooded cattle to bring to this Territory.—Journal-Miner.

A serious accident occurred yesterday in the Hobart mine, Pioneer, which resulted in the serious, although not fatal injury of Dave Heron and Fred Wilman by a cave in the mine. Dr. Cook, who was summoned last night, has returned and speaks hopefully of their recovery from the effects of the crash.

The rink, April 1st, on the occasion of the Shoot and Pillow Case assemblage, was crowded, and although not more than a third of those present were "slipped and sheeted" there was no lack of enjoyment. There was an improvement in the music which was plainly visible in its exhilarating effect upon the dancers. Thursday's entertainment will be followed by a calico ball some time during the latter part of this month.

Messrs. Burns and Kennedy have been putting in some very good work prospecting on the Woodpecker lately and have proved conclusively that this phenomenally rich ore body is continuous the entire length of the claim, and beyond the end lines of the claim. They deserve a great deal of credit for the able and intelligent manner that has been shown in bringing out the merits of this mine in such plain shape that any person who has never seen a mine can not help but see that is an extraordinarily fine piece of property.—Record.

FROM TUCSON TO GLOBE BY RAIL.

The first assuring fact that the Tucson and Globe Narrow Gauge railroad is to be built, was received by telegraph from J. Alden Gaylord, of New York, that the Pima County bonds issued in behalf of that enterprise had been sold and that the building of the road is now a fixed fact.

A road from Tucson would prove of vast importance to this mining district and would be the life of a road that will reduce the rate of freights from that now paid for transportation by wagons from Wilcox. The amount of business now carried on by animal power is likely to be quintupled at once, by a reduction of freights to a price that would remunerate a company carrying it by rail. Messrs. Gaylord, Leatherwood, Pugh and Tuttle, who were recently here in behalf of the enterprise availed themselves of the opportunity of studying the capabilities of Globe as a mineral producing district. These gentlemen did not make a cursory examination, they entered into facts and figures and were greatly facilitated in the work by Dr. Alexander Trippel, in arriving at conclusions. He gave them data that could not be gossiped in regard to the copper industry, which conveyed belief that there were no competitive copper mines in the United States that can as cheaply produce copper lichen as the mines of Globe, because of their unparalleled richness, ductility of ore and great abundance. Dr. Trippel also gave lucid descriptions of most prominent silver mines and prospects and exhibited silver ores from mines of Globe district and explained why he believed that the silver output would be most abundant here when mines were properly developed. The railroad question and the feasibility of rail from Tucson to Globe and why a terminus at San Pedro river would not command the carrying of heavy freight to and from Globe was exhaustively discussed, which seemed convincing to the representatives of the railroad and may be conducive to the speedy building of the road to Globe.

DISTRICT COURT PROCEEDINGS.

J. H. Eaton vs. J. W. Eddy, et al.—Proofs heard and taken under advisement.

E. C. Sandley vs. The Old Dominion Copper Mining Company.—Continued for the term.

M. V. Baldwin vs. W. B. Hellings, et al.—Reinstated on calendar and continued for the term.

Thos. H. Mason vs. The Old Dominion Copper Mining Company.—Continued for the term.

Joe Redman et al. vs. J. H. Eaton.—Proofs heard and taken under advisement.

Territory vs. Harvey Morris.—Charged with assault with intent to kill and murder. Found guilty as charged and recommended to the mercy of the Court. Time for passing sentence set for Tuesday at 10 a. m.

Territory vs. John Nelson.—Grand larceny. Arraigned and plead not guilty. Trial, or continuance, probably to-day.

The following from a San Francisco exchange will prove of interest to acquaintances of Mrs. J. W. Murphy in Globe, where she resided for a number of months: On last Monday evening a delightful party was given by Mrs. J. W. Murphy at her home on Pine street. The house was decorated for the occasion. The hostess was assisted in receiving by her sister-in-law, Mrs. F. Elridge and Mrs. Randolph. The former leaves to-morrow for Lancaster, Penn. Music, dancing and singing were the order of the evening until 12 o'clock, when supper was announced. The table was covered with cloth of cardinal satin with hand-painted designs from the Mikado. The three little maids were in the centre, and bouillottes of choice flowers rested at each plate. Three hours were spent at the table discussing the menu, and then the company returned to the parlors, where dancing was resumed till 2 o'clock, at which hour the guests took leave of their entertainers.

If patrons of the Bar desire copies of the "Arizona Outlook" sent to friends gratis, they can be accommodated by leaving names and address at the Bar office, or by making the wish known to Patrick Hamilton, Commissioner of Immigration, Phoenix, Arizona. We do not know of a compendium concerning the capabilities of Arizona that equals the Arizona Outlook. The name of the author, P. Hamilton, ensures its reliability and should render it desirable to those seeking information concerning this Territory.

A number of squaws and children, including Chihuahua (38 in all) were expected to arrive at Bowie yesterday. Geronimo thus relieved will move with more celerity and consequently more dangerous.

Messrs. Graves and Anderson, attorneys, arrived in Globe Wednesday.

Orlando Briggs, who has been sick for several days, is perceptibly better.

This number completes our eighth year of editorial labor in Globe.

The grand jury ignored the case against Fisher.

Court will not hold longer than Friday.

TERRITORIAL TOPICS.

Condensed From Our Exchanges for "Silver Belt" Readers.

Paddy Lynch, of Arivampa, recovered only \$500 of the money stolen from him.

It is stated that Gus Ellis & Co., of Phenix, are figuring for a settlement on the basis of forty-six cents on the dollar.—Journal-Miner.

An unsuccessful attempt was made on Wednesday night to blow open the safe of Irvine & Co., of Phenix. The safe was rained but not opened.

And now it is stated that Pima County is to have another slice cut off of her domain, and that it will be called Nogales County.—Tombstone.

Mr. Charles Whitlow, one of the oldest and most highly respected citizens of Pinal County, died at his ranch, twelve miles west of Pinal, Tuesday evening at 9:25 p. m., of Bright's disease of the kidneys.—Record.

The loss of Mammoth ore, from lack of proper machinery, is estimated at five dollars per ton. With proper means for saving the gold, and the working of 60 tons daily, a saving of \$300 per day could be made. This could be largely increased by additional stamps and an ore tram-way to the mill.—Index.

By a cave of the wall rock in the Silver King mine on the 21st, on the 8th floor of the 500 level, L. Bowman was instantly killed; John Stanfield was so badly injured that he died next morning; Tim Curry was badly injured, but his injuries are not necessarily fatal, and J. A. Kingsbury was somewhat cut about his face and scalp. This is the first fatal accident in the Silver King mine.

Little Addie, daughter of Samuel Hughes, while playing with fire in the yard Tuesday caught fire and was severely burned, nearly all of her clothes were consumed. Addie is about 3 years old, and when the flames caught her clothes she ran to the hydrant and one of the neighbors seeing her turned on the water and thus saved her life. While her body is badly burned, Dr. Handy, the family physician, says there is no danger.—Star.

He met with smooth sailing until within fifteen miles of Riverside. There his frail bark struck a snag, capsized and dumped the contents into the river. A San Diego officer passed through Colton last night, having in charge the Mexican scoundrel who set fire to the railroad bridge at Yuma last summer. The fellow was caught in Mexico by Thomas Botello, formerly a brakeman on the Southern Pacific, but now on the detective force of the company, and incarcerated in a Mexican prison until called for by the proper official documents. Conductor Fillmore, with Botello and several witnesses accompanied the officer to San Diego, and it is hoped the prisoner will speedily be sent up to San Quentin, to remain during the rest of his miserable life. A reward of \$500 was offered for his arrest.—Evening Semi-Tropic.

Little Frenchy and his partner have made a very promising mineral discovery about ten miles east of Florence and about one and one-half miles north of the river. It is a white quartz lead about 18 inches wide carrying sulphure ore, some of which is very rich. One piece taken out Saturday contained nuggets of what miners call brittle sulphurets as large as a peanut. The specimen will probably assay \$16,000 per ton. This, of course, is a rare piece of ore, and the value of the "find" cannot be estimated by it. But there is little doubt that the entire ore body will average well. There is a strong probability that this lead is the one so faithfully searched for by Dr. Jones and a party a decade since. The locality is the same and the ore the same in character as the rich float found by the Jones party.—Florence Enterprise.
