River Guides,

Thank you for your interest in guiding on the Salt River for Wilderness Aware Rafting. Year-round I collect river resumes a interested in working the Salt River season. If you are interested in working on the Salt River please email me with a copy letters and your contact information.

As it gets closer to the start of the season I'll have a better idea of what the snowpack and reservations are looking like I'll interested guides later this winter with a proposed pay scale, as well as updated housing and workload information.

An average Salt season is 70 days lasting from the end of February through the middle of May. As for the amount of work situation similar to the Gauley in West Virginia. About 80% of the business on the Salt is on weekends so you can anticipat be heavily marketing our overnight trips to fill in the weekday business.

WA has one of the few shuttle permits available on the Salt, so there may be some fill-in work shuttling private vehicles fo point will be riverside camping near the put-in with primitive facilities.

I'll be sure to keep you posted as our plans firm up. Please feel free to contact me with any additional questions. Thanks ag.
