White Water Rafting in Arizona – Salt River 5 Day Wilderness!

The Salt River 5 day trip is one of the premier whitewater wilderness trips in the West. With this trip you have the luxury of time to thoroughly explore the vast number of side canyons and follow creeks to their hidden pools. Every day brings new challenging rapids to be conquered by your team and led by your expert guide. Embrace the transformation into “river time”, a state of mind only achieved on the river, allowing yourself to contemplate the diverse layers of rock or count the arms of a giant saguaro cactus. Spend evenings with family or friends playing games on secluded sandy beaches. In the morning enjoy the warmth of a hot cup of coffee as you watch the sunrise.

We float 51 miles at a relaxed pace designed to ensure that our guests truly escape the everyday within the Salt River Canyon. Each bend in the river brings thrilling rapids, evokes new curiosities about
geology, or unveils stunning views of wildflower covered cliffs.
Treat yourself to this hidden treasure of the Southwest.
